

BS-240 VET Clinical Chemistry Analyzer

**Cost-effective,
animal-side testing
for lab quality results**

The **BS-240 VET** is a compact, multi-functional chemistry analyser that can run up to 200 tests per hour. An optimal testing solution for veterinary offices or small laboratories. We offer a comprehensive menu of test panels including Reproduction, Diabetes, Health & Wellness, Therapeutic Drug Monitoring, Renal, Liver, and Thyroid.

Benefits:

- ✓ A broad test menu
- ✓ Accurate, lab-quality results
- ✓ Cost effective, on-site testing
- ✓ Fast diagnosis and treatment

Features:

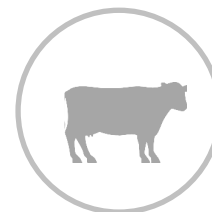

- ✓ Fully automated system
- ✓ Step-by-step maintenance guide for easy operation
- ✓ Compact benchtop size for various environments
- ✓ Flexible loading –up to 80 sample positions

A comprehensive test menu

Reagent kits, Calibrators, and Controls for the BS-240 VET analyzer

Individual Tests:

Cortisol

Phenobarbital

Progesterone (P4)

T4

Diabetes Monitoring Panel:

HbA1c

Fructosamine

Glucose

Therapeutic Drug Monitoring (TDM) Panel:

Albumin

Alk Phos

ALT

AST

Bromide

BUN

GGT

Globulin

Glucose

Levetiracetam

Lamotrigine

Phenobarbital

T. Bilirubin

Total Protein

Zonisamide

Renal Panel:

Albumin

Bicarb (CO2)

BUN

Calcium

Chloride

Creatinine

Globulin

Phosphorus

Potassium

Sodium

Total Protein

Toxicology Panel:

Barbituates

Benzodiazepines

Narcotic Analgesics

Stimulants

Tranquilizers

Liver Panel:

Albumin

Alk Phos

ALT

AST

GGT

Globulin

Glucose

T. Bilirubin

Total Protein

Avian/Exotic Liver Panel:

Albumin

Amylase

Cholesterol

CPK

GGT

Globulin

Glucose

LDH

Total Protein

Bovine Panel:

Progesterone (P4)

Calcium

Phosphorus

Magnesium

NEFA

BHB

Thyroid Panel:

Total T4
